

Ranger SERWISEAL® Closure
Super SERWISEAL® Closure

Enhanced for Easier Installation
and Improved Performance

A Field Proven Design with a New Twist

Long-term protection for buried service wire splices

The vial of the Ranger SERWISEAL® Closure (up to 6-pair) and the Super SERWISEAL® Closure (up to 12-pair) comes pre-filled with POLY-BEE™ Sealant, which forms a field proven (over 14 years) protective barrier around the individual splice connectors.

Two-piece design

There are no loose parts. Each SERWISEAL Closure consists of a pre-filled vial, and a cap assembly with integral insertion ram and bonding connector.

Vial and Cap

Fast, easy installation

After preparing the service wires, simply lay them within the grooves in the cap, lay the exposed cable shield within the bond connector and tighten. Splices on the individual pairs are easily organized around the integral insertion ram.

Cap, Bond Connector and Splices

A twist & snap secures everything

The SERWISEAL Closures now have a locking feature on the threads of the vial which provides a clear indication that it is fully engaged and prevents reuse of the vial.

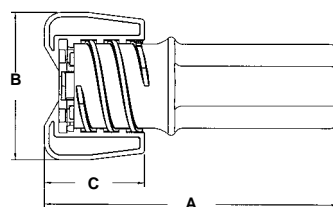

Cap Thread Locking Feature

Compact size

The table below shows the overall dimensions of the SERWISEAL CLOSURES.

Size	A (mm)	B (mm)	C (mm)	D (mm)
Ranger	5-1/2" (140)	2 3/8" (60)	1 5/8" (41)	1 5/8" (41)
Super	6 1/2" (165)	3 1/4" (83)	2 3/16" (56)	1 7/8" (43)

Features

- Only two components; filled vial and cap with integral ram & bond connector.
- Octagon shaped vial for ease of application and maximum capacity.
- Pre-filled with POLY-BEE Sealant; field proven for over 14 years.
- Improved integral bonding connector
- Positive locking feature to insure proper application and to discourage reuse.

Ordering Information

Catalog Number	Description
8006137	Ranger SERWISEAL Closure for up to 6 pair (0.5 diameter) Service Wire
8006039	Super SERWISEAL Closure for up to 12-pair (0.6 diameter) Service Wire
80008946	Replacement Vial (filled) for Ranger SERWISEAL Closure
80851909	Replacement Vial (filled) for Super SERWISEAL Closure
